PROFILE

Data Science graduate focused on transforming raw data into meaningful insights that drive better decisions. Experienced in data preparation, exploratory analysis, statistical exploration, and interactive data visualization using Python, SQL, Excel, and Power BI. Brings an analytical mindset, attention to detail, and a strong interest in solving real-world problems through data.

EDUCATION

Bachelor of Science in Data Science 09/2020 – 01/2026
University of Jeddah College of Computer Science & Information Technology Jeddah, Saudi Arabia
GPA: 4.55 / 5.0 (Excellent)

SKILLS

Data Analysis — Data Preprocessing | Exploratory Data Analysis (EDA)

Programming — Python | SQL

Visualization — Power BI | Power Query | DAX | Excel | Tableau

Libraries & Tools — Pandas | NumPy | Matplotlib & Seaborn

PROFESSIONAL EXPERIENCE

Data Analysis Intern
Saudi Electricity Company (SEC)
- Analyzed smart meter data for 1,000+ users using Excel and Pivot Tables.
- Improved reporting efficiency by 40% through automated dashboards.
- Cleaned and processed datasets for accurate analysis

PROJECTS

HR Analytics Dashboard | Power BI
- Developed an interactive dashboard to monitor employee data and key HR metrics.
- Analyzed gender distribution, promotion eligibility, service years, and job levels.
- Created visual reports to support HR insights and data-driven decisions.

Tools: Power BI, Data Visualization, HR Analytics

Machine Learning Web Application Project
- Collected and preprocessed image datasets from Kaggle.
- Built and evaluated machine learning models using transfer learning.
- Achieved up to **99% accuracy** on classification tasks.
- Deployed the model as a web application using Streamlit.

Customer Churn Analysis & Retention Insights
- Conducted EDA using Python to identify customer churn patterns and trends.
- Analyzed customer behavior across contracts, tenure, payment methods, internet services, and monthly charges.
- Identified key churn patterns and developed data-driven recommendations to improve customer retention.
- Developing an interactive Power BI dashboard to visualize churn trends and customer retention insights. (In progress)

COURSES

Data Analytics Essentials
CISCO

Machin Learning and AI with python
edX Harvard - In Progress
